OFI MEMBERS DIRECTORY 2021

Ornamental Fish International Members Directory 2021

Welcome to the latest addition of our Members Directory

OFI is the peak international trade association representing the ornamental fish industry since its inception in 1980. We represent members from more than 30 countries around the world and include members from all sectors of the industry (producers, exporters, importers and retailers) as well as a number of NGOs and other trade associations. OFI represents and promotes the interests of the industry through lobbying to various institutions around the world; as well as educating industry and hobbyists in responsible and sustainable Best Practices. Last year, OFI members have adopted its new charter guaranteeing the conduct of an ethical, fair and legal trade.

For more information about OFI, please visit its website at www.ofish.org .

Members have been listed in the country or regions alphabetically.

COUNTRY / REGION - AUSTRALIA**CAIRNS MARINE**

Lyle Squire Jnr.
 14 Industrial Avenue, QLD 4870, Stratford, Cairns
 Tel: +61 7 4058 1711; fax: +61 7 4058 1707;

Boris Scholven
 Westpreussenstrasse 32-38, D-47809 Krefeld.
 Tel: +49 2151 5191 1335; fax: +49 151 5191 28 1335;
 mobile: +49 1722 524 787;
 e-mail: boris.scholven@fressnapf.com;
 website: www.fressnapf.com.

"Different than anybody else", that is the motto from Torsten Toeller, the founder and owner of the Fressnapf Tiernahrungs GmbH. The in 1990 established trading company developed within a few years into the number 1 for pet food and care. Fressnapf sees itself as a discounter with pioneering business idea: large-scale stores for pet food and care, huge product assortment, low priced discount prices and constant consulting with all questions about pets. The portfolio includes Private Label such as more4cats and more4dogs, real nature, MultiFit, fit+fun or Bioplan. Fressnapf offers his customers a substantial amount of services such as dog hairdressers, vets, pet insurances or travels with pets. As a franchise company Fressnapf works together with around 270 franchise partners, which get supported from the headquarters in Krefeld with regards to Marketing, Purchasing, Sales and IT. 2009 Fressnapf opened store number 1, 000 in Europe. Next to the classic Fressnapf stores, which are concentrated on pet food and care, there are also sales concepts like large-scale XXL stores, where you can find species like birds, rodents and reptiles and ornamental fish in the assortment. Outside of Germany Fressnapf is represented in further 11 European countries, in the non-German speaking countries the trade group is called Maxi Zoo. Around 30% of the turnover is generated abroad. For the future the company has planned the expansion of his pole position as a multichannel-retailer with the 3 sales channels stationary trade, catalogue and online shop. Since many years the company supports the Deutsche Tierschutzbund e.V. with donations in money and kind. Furthermore, Fressnapf is involved in the WSPA Welttierschutzgesellschaft and the Tiertafel Deutschland e.V.

We have established a network of good farmers, who adopt good farming management practices, providing quality fishes, advice and support. With over 20 years' experience in wild caught fish industry, we serve our customer with excellent quality fish with staff and personals those have experience in their branch.

**LINI (YAYASAN ALAM INDONESIA LESTARI)**

Gayatri Lilley
 Jl. Tirta Nadi No. 21. Sanur, Bali 80227
 Tel: +62 361 842 7168; fax: +62 361 286 806;
 mobile: +62 812 387 9177;
 e-mail: info@lini.or.id, gayatri@lini.or.id;
 website: www.lini.or.id.

Yayasan Alam Indonesia Lestari - The Indonesian Nature Foundation (LINI) is a local Indonesian not-for-profit organization, established in January 2008. The staff of LINI originally worked for the Marine Aquarium Council (MAC), which has pioneered sustainable marine aquarium fisheries management in Indonesia since 2003. To date, over 500 fish collectors' groups in Bali, west Java, Padang and Mentawai in Sumatra, Banggai Islands (Central Sulawesi) and Spermonde Islands (South Sulawesi), have been trained to adopt best practices and develop sustainable fisheries. LINI's mission is to support the conservation and management of coastal marine resources throughout Indonesia, by empowering coastal communities, and promoting fairer, more sustainable practices of marine resource use.

*Within the Reefmaster Group of Companies, each of its subsidiaries is focusing on one aspect of marine ornamental animals and aim to be the most technologically advanced exporter of marine ornamental livestock in Indonesia. The parent company, PT. Banyu Biru Sentosa, has had experience as a coral exporter since 1979. The company underwent a radical revamp in 2011, and the advancement is unstoppable. We are continually evolving and rejuvenating to be a “**Young Progressive Company**”. Today, the Reefmaster Group of Companies' driving team is dominated by “**Generation Y**”, with 70% of the company's staff below 40 years of age, thus, effectively giving the company a healthy boost of energy and innovations. We keep expanding our knowledge in reef keeping technologies, not only as a customer-oriented exporter, but also as an environmentally responsible company, by investing heavily in proper equipment and best additives to bring the quality that we have today. We educate our staff about the importance of daily water monitoring and handling the animals in the most delicate way possible, while, at the same time, we develop in-house aquaculture and marine-based aquaculture as our effort to reduce pressure on the environment. As a manifestation of our “**Young Progressive Company**” slogan, we know that our pressure on Mother Nature can be reduced by not wasting what it gives us. We believe our trade practice to our suppliers and fishermen with technological advancement enables us to do just that, ensuring that all living animals you receive from us will always arrive in the best possible health and should stay that way due to our hard work acclimating them under our best possible artificial living conditions.*

Our Vision: *To be Indonesia's most technologically advanced marine ornamental livestock exporter by implementing fair trade practice, being environmentally responsible and giving the highest possible quality for our customers.*

IG: vivariamarine

Vivaria Marine was founded in 1972. The company has thrived for almost four decades and today is one of Indonesia leading names in marine export industry. Since our inception in early 70's we have grown considerably in experience, networks, management and technological capability. Throughout the years we have developed essential expertise to ensure our clients receive the best products and services.

Our goal is to deliver exceptional coral, invertebrates, and fishes globally with excellent service. It is our dream to make corals easily accessible worldwide regardless of geographical location, and doing so sustainably is our top priority. We believe every aquaria hobbyist on earth should get equal opportunity to acquire any type of corals they preferred without any hassle. We bring to the world a collection of diverse and unique corals from Indonesia.

Phoenix Farm is a breeding farm of tropical fish at the Negev desert. Careful thought and planning have gone into creating the optimal breeding and living environment for our fish, while making environmental and energy conservation considerations a priority. Strict sanitation and environmental health monitoring make our fish fit and healthy, as well as beautiful. Our facilities are closed, bio secured and we benefit our unique location at the Negev desert which provides us isolated environment. Our philosophy encompasses four main principles:

1. *Quality - At our Farm we take pride in breeding and providing a quality Fish. This includes much attention given from the selection of brood stock to customer service. All the fish we offer are bred at our Farm only.*
2. *Family - The Farm is family owned and operated. All stages of production are handled and managed by family members, from the selection of brood stock, breeding process, fish growth, sorting, marketing and shipping.*
3. *Research & Development We constantly keep improving our facilities, processes and adding new ornamental tropical fish to our production.*
4. *Customer service we provide you with quality product backed by our understanding of the importance of customer service and satisfaction. We believe your satisfaction is the most positive way to promote our business.*

FB: CWA IG: creativewayaqua

Creative Way Global, founded in 2009, is one of the famous ornamental fish importer/exporters in Taiwan. Our principles are, Profession, Quality, and Efficiency.

1. Focusing ahead & Continual innovation

We keep working on the improvement of packing skills, quality control, and management of inventory by using our professional knowledge.

2. Quality Assurance & Profit Creating

Well connected with fully stock and good quality suppliers; carefully handle and inspect live stocks to ensure the quality. We strive to perfect packaging and lowering shipping cost by maximizing number of fish while minimizing amount of water.

3. Informatization & Efficiency lifting

For meeting the market demands, we can ship out orders within 3 days (after getting your orders confirmed), this can help customers to reduce their time-to-market, and to win at the start.

4. Partnership & Co-prosperity We can accurately predict the customer's demands and provide the products with the most competitive price, it helps clients to get more opportunities and to occupy most market share. All in all, we hope to work with customers in good partnership and to create Co-prosperity situation.

We are an ornamental freshwater fish trader from Thailand. We have many varieties of fish. Our farm has the disease-free farm certificate from the Ministry of Agriculture and Co-operatives of Thailand. We are ready to serve you the best as our mission is "Satisfy all of our clients to reach their demand with our best."

WONDERFUL FIGHTING FISH Co Ltd

Contact: A. Muang Nakorn Phatam, Nakorn Phatam Province, Thailand.
Tel: 6664.962.9690;
emails: info@wonderfulfightingfish.com, info@wonderfulfightingfish.com
website: www.wonderfulfightingfish.com

We are ornamental tropical freshwater fish breeders with more than 20 years' experience. We breed mostly Siamese fighting fish (Betta splendens) selectively bred to display a vibrant array of colors and tail types, big ear guppies, fire red shrimp, goldfish, koi, mollies, cichlids, swordtails, platies, discus, etc. Besides breeding ornamental tropical aquarium fish, we also have aquatic plants, pond plants, aquarium driftwood, water lilies, lotus, ornamental trees, etc., at our own 3-acre farm located in the Samkwaypuek sub-district, Nakorn Pathum Province, which is near to Bangkok. Thus, we have been able to supply the

extensive demands for colorful ornamental tropical freshwater fish and all said items to clients from all over the world. Our farm operates under the control of The Department of Fisheries of Thailand and The Department of Agriculture of Thailand. Therefore, you will always get a "Fish Health Certificate" and a "Phytosanitary Certificate" as proof of the quality of our products.

The OFI Charter

- OFI members promote and support captive breeding, farming and collection of ornamental aquatic animals (hereunder, fish and invertebrates) and aquatic plants with respect for natural populations, the environment and the contribution made to socio-economic benefits for the local population;
- OFI members only trade in fishes, corals, other invertebrates, plants, etc. that are legal in their country; they respect national and international laws and regulations;
- OFI members prevent the release of specimens into the wild, except for specific nature conservation projects;
- OFI uses the latest science for defining its standards and supports scientific work relating to our industry;
- OFI members apply proper scientific names to the best of current knowledge;
- OFI supports the careful collection of freshwater and marine fish and invertebrates;
- OFI supports the education and training of breeders, farmers and collectors to further improve appropriate handling, animal health and welfare protocols, and promoting diver safety (e.g. OFI condemns the use of cyanide or other poisons, coral breaking or trenching, etc., for the collection of marine organisms);
- OFI promotes trade and handling of ornamental aquatic animals with respect for their wellbeing; OFI members pack and transport aquatic animals in accordance with national and international legislation (see OFI Educational Publication 7);
- OFI promotes the addressing of biosecurity risks in our facilities and the training of staff in biosecurity practices (see OFI Educational Publication 4); after long distance transport, or when needed, importers will see to it that fish receive adequate quarantine.
- OFI members undertake to make every effort to maintain the health of aquatic ornamental animals. They provide proper water quality, implement adequate treatment and feeding protocols and organize regular health inspections. OFI members restrict the use of antibiotics as much as possible, and in accordance with relevant national legislation.
- OFI members operate in a spirit of cooperation with each other and according to honourable standards of trading, both between each other and with non-members of the organization;
- OFI members agree to settle legitimate complaints promptly and satisfactorily.
